

THE DIRECTOR OF CENTRAL INTELLIGENCE

WASHINGTON, D.C. 20505

National Intelligence Council

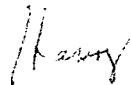

8 December 1981

MEMORANDUM FOR: Director of Central Intelligence
Deputy Director of Central Intelligence

FROM : Henry S. Rowen
Chairman, National Intelligence Council

SUBJECT : SIG on INF, 7 December 1981

The attached memorandum summarizes discussion at the SIG on two outstanding issues related to tabling by the US in Geneva of a draft INF Treaty. Because of your interest in US cruise missile options, you may be interested in the discussion summarized in Paragraph 4 of the memorandum. All the players except the JCS (and me) are prepared to support a position which could result in ground launched cruise missiles being limited to a range of 1000 km; this would eliminate their usefulness in many regions of the world.
